

KEGG Enrichment

Pathways

Neuroactive ligand–receptor interaction
 PI3K–Akt signaling pathway
 Calcium signaling pathway
 Cytokine–cytokine receptor interaction
 MAPK signaling pathway
 Focal adhesion
 Rap1 signaling pathway
 Ras signaling pathway
 Chemokine signaling pathway
 Cytoskeleton in muscle cells
 Axon guidance
 Neutrophil extracellular trap formation
 Complement and coagulation cascades
 Neuroactive ligand signaling
 Regulation of actin cytoskeleton
 Hematopoietic cell lineage
 cGMP–PKG signaling pathway
 Oxytocin signaling pathway
 Cell adhesion molecules
 IL–17 signaling pathway
